## **DETAILED ACTION**

### ***Drawings***

The amendment overcomes the objection to the drawings made in the last Office action.

### ***Claim Rejections - 35 USC § 112***

The amendment overcomes the claim rejections made under 35 U.S.C. 112 in the last Office action.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

The amendment overcomes the claim rejections made under 35 U.S.C. 102(b) as being anticipated by Reeves (US 3,371,874) in the last Office action.

Claims 1, 2, 4, and 7-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Cheng (US 6,443,377) as set forth in the last Office action.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 5 and 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cheng (US 6,443,377) in view of Reeves (US 3,371,874). Cheng discloses substantially all of the claimed structure including a lift seat (27) with a downwardly extending peg and a bore provided in the rotatable seat (28) with the exception of threaded engagement in order to produce vertical movement of inner grinder (26) by rotating rotatable seat (28). In a closely related art, Reeves discloses a pepper grinder with a threaded engagement in order to produce vertical movement of inner grinder (46) by rotating rotatable seat (70). Therefore, it would have been obvious to one skilled in the art at the time the invention was made to provide Cheng with a threaded engagement in order to produce vertical movement of inner grinder (46) by rotating rotatable seat (70), as taught by Reeves.

***Allowable Subject Matter***

Claim 10 is allowable.

***Response to Arguments***

Applicant's arguments filed on February 1, 2005 have been fully considered.

The claim rejections made under 35 U.S.C. 102(b) as being anticipated by Reeves have been withdrawn in view of the amendment.

With regard to claim 1, Applicant's arguments with respect to Cheng have been fully considered, but they are not persuasive. Cheng discloses a lift seat (27) with a plurality of spokes (272) which moves the lift seat upward or downward. Without the grooves for the spokes (272), Chang's device will not function because lift seat will not move upward or downward, but rotate. Furthermore, the fact that Cheng's spokes (272) engage serrated teeth (281) of the flange (280) is not relevant to the claim.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
